

## EPS - offer for Mr. Siemaszko

**From:** Michal Siemaszko <mhsiemaszko@fastmail.net>  
**To:** jakub@eupatient.com  
**Subject:** Re: EPS - offer for Mr. Siemaszko  
**Date:** Tuesday, December 08, 2015 2:02 AM  
**Size:** 91 KB

---

Dear Mr. Geier,

It's been a week since I deposited 250 EUR and was promised to receive information regarding dates **as soon as possible**. We spoke on Friday and I was told I would receive these **by Monday morning**. I have not received **neither an email at that time nor a phone call**, only after my follow up phone call Monday afternoon I received your reply.

Mr. Geier, these are **very serious matters** - my expectations and intent behind these tests was explained in detail over the past few emails we exchanged. The result must be a comprehensive diagnosis and documentation in English in order to follow up with both therapy recommendation as well as forensic expertise.

Based on my impressions so far, I cannot pay up front the full amount without knowing what I can expect next. 250 EUR was already paid up front, for the remainder (1000 EUR) I can offer alternative solution: paid up front each day before tests; depending on how this will be handled further, each following day paid up front up to the full amount.

Also, kindly please explain when (which days) which of the following tests - as outlined previously - would take place and the expected preparation for them:

- Physical examination of abdomen, lower-abdomen, genital
- Digital examination of rectum
- Palpation examination of prostate
- Ultrasound examination of prostate, kidneys, urinary bladder and genitals
- Doppler examination of the blood-flow in genitals
- Uroflowmetry
- Complex laboratory tests (blood, biochemicals, hormones, serology, STD, kidneys)
- Urine cultivation
- Sperm cultivation test incl. spermiogram
- MRI

Awaiting your prompt reply.

Regards,

--

Dear Mr. Siemaszko,

As we spoke by the telephone, I am sending you the available dates for the Complex urology examination. Please let me know which is most suitable for you and I will reserve it for you.

- 14.12.2015, 9.00, Urology examination
- 14.12.2015, 10.45 MRI
- 15.12.2015, 9.00 spermiogram
  
- 12.1.2016, 8.45 Urology examination
- 12.1.2016, 10.45 MRI
- 13.1.2016, 9.00 spermiogram
  
- 25.1.2016, 10.00 Urology examination
- 25.1.2016, 12.15 MRI
- 26.1.2016, 9.00 spermiogram

Also, please let me know if I can help you with the transportation and accommodation in Prague. I am happy to book the tickets and hotel for you. Me or my colleague can wait for you at the airport or train station and accompany you to the Urology Clinic. I would like to remind, the rest of the payment (€ 1.000) has to be paid before the health-care is provided.

Should you have any questions, please do not hesitate to contact me.

Yours faithfully,

Jakub Geier

Good morning, Mr. Siemaszko,

Thank you for the message. I confirm we have received the payment.  
I spoke with the Urology clinic, they promised to send me the dates for you shortly. u  
Meantime, can offer you assistance with transportation or accommodation? Here I would like  
to recommend Hotel Majestic Plaza Prague which is very close to the Clinic and provides high  
standard of services and comfort.

With kind regards,

Jakub Geier

Dear Mr. Siemaszko,

I would like to thank you for your interest. I am happy to confirm the cost of € 1250 for the 2 day diagnostic package. The list of the examinations includes the necessary test required for setting the diagnose - tests for STD are part of it, so no additional time of stay should be necessary.

For the confirmation of healthcare, I need to ask you for accountable deposit of 20 %. Please kindly find attached the call for the payment. After, I will contact the Urology clinic requesting available December terms and let you know as soon as possible.

Yours faithfully,

Jakub Geier

On 2015-11-29 23:39, Michal Siemaszko wrote:

Dear Mr. Geier,

Thank you again for the offer you presented. I would like to schedule an appointment. My choice is the package with MRI, quoted at 1250 EUR, to start with. Please confirm that cost of anamnesis / test results consultation is included in that price, otherwise what is the additional cost.

Kindly please let me know the dates that are available in December 2015 - 2 or 3 options, if possible. You mentioned these tests would take about 48 hours to complete - please confirm so I can plan transport and lodging accordingly.

In addition, I will need to know the availability and cost of "Bacteriological analysis of urethra including chlamydia-PCR, mycoplasma-PCR, candida-PCR" and how much longer the entire stay would take if this additional test was to be made. Any additional tests that might be required to collect sufficient information and comprehensively diagnose this condition would be determined on site.

Regards,

Dear Sir,

Again, reason for presenting this information and asking these questions was to make sure clinic I choose will be sufficiently equipped and staffed to help with issue I described in detail. My intent was never to conduct remote diagnosis.

Thank you for your reply. I will make the decision by the end of this month.

On Fri, Nov 13, 2015, at 03:02 PM, [jakub@eupatient.com](mailto:jakub@eupatient.com) wrote:

Dear Mr. Siemaszko,

Currently we have four facilities where the examination and following treatment is possible. Two of them are Faculty teaching hospitals (Charles University Prague), one is a private hospital and one is a private urology center. In some cases the doctors are the same because they give the lectures at the faculty hospital. But all of them can recommend the treatment only after examining you personally. After consulting your documentation, the optimal start would be run the test I described earlier. The medical documentation needs to be checked for the possible progress of the disease.

The facilities we found for you has the highest certifications and the doctors are top capacities in the field of urology with many years of clinical practice.

I would be happy to ask for the specialized opinion on the medical records you sent us. The price will be € 225 and € 15 x 3 for the translation. But you have to understand that without a physical check-up it will be based on the inactual data.

If you decide for the examination package you will receive a comprehensive medical report, wrote by the chief doctor of the respective clinic/hospital. We can of course ask for the forensic expert to confirm the validity of the document .

Should you have any questions, please, do not hesitate to contact me.

With kind regards,

Jakub Geier

On 2015-11-12 21:33, Michal Siemaszko wrote:

Dear Mr. Geier,

Thank you very much for this additional treatment package. I will make the decision after I receive this further info/confirmation from you --

Attached please find documents I mentioned few days ago I would provide as context for the condition which I need diagnosed comprehensively - both sworn translations and originals, consolidated in an annotated PDF file, with individual pages containing the following:

- page 1: USG - observation from 29.01.2014 visit - sworn translation
- page 2: USG - images
- page 3: USG - observation from 29.01.2014 visit - original
- page 4: Candidiasis treatment - observation from 13.11.2013 visit - sworn translation
- page 5: Candidiasis treatment - observation from 13.11.2013 visit - original
- page 6: Candidiasis treatment - observation from 12.12.2013 visit - sworn translation
- page 7: Candidiasis treatment - observation from 12.12.2013 visit - original
- page 8: Candidiasis treatment - receipts for pharmaceuticals - 13.11.2013
- page 9: Candidiasis treatment - receipts for pharmaceuticals - 12.15.2013
- page 10: Candidiasis treatment - receipts for pharmaceuticals - originals

In January 2014, over the course of 1-2 days, my health condition (urogenital area) deteriorated rapidly, form & function of this part of my body changed significantly. This diagnosis must provide me with sufficient data to answer questions such as whether candidiasis treatment I was undergoing at that time by itself could cause such change in physical form & function, including large amount of urine retention - which is very doubtful, considering the scars on my body, the very visible changes to genital area, etc.

After familiarizing yourself with this documentation, kindly please let me know:  
- what tests you'd recommend to start with, unless these remain the same as you

previously mentioned

- whether the doctor diagnosing me is (or whether you have other experts on site) experienced in side effects of Candidiasis treatment with pharmaceuticals mentioned in the documents

- whether the doctor diagnosing me is (or whether you have other experts on site) experienced in examination which will later be used to formulate forensic expertise (this condition might be connected to assault I experienced in January 2014) - forensic will be done by specialized institution, however, if you have experience in formulating results in an unambiguous way to be used in such, it would be very helpful

Kind regards,

Dear Mr. Siemaszko,

First of all I would like to thank you for your interest in our services. If you have already some medical documentation or results it will be very helpful.

The package I offered you is urology/oncology, as some symptoms can be very similar and requires specific examinations to find out the right diagnose. The respective doctor in charge will be able adapt the test once the origin of the problems is confirmed.

At the same time I have found another Clinic in the center of Prague which can provide the same urogenital diagnostics as below but with extra MRI and more comprehensive sperm cultivation test incl. spermiogram. All the examination will be done in 48 hours and the Clinic is, based on the results, prepared to offer the following treatment. The price of this package is €1250.

Please let me know if I can be of any help,

Yours faithfully,

Jakub Geier

On 2015-11-08 02:21, Michal Siemaszko wrote:

Dear Mr. Geier,

Thank you very much for this detailed response. I expected putting this offer together would take up to two weeks, as I was informed when speaking with your clinic on the 29th of October.

I will follow up with translations of medical documents that I have, which should be ready in second half of coming week - these might help in determining / verifying which tests are needed in order to properly diagnose this.

Regarding your mention of oncology department - I did not suffer from nor underwent any cancer related treatments; I did mention this change (in how urogenital looks & functions) **happened suddenly** (over the course of 1-2 days); cancers, as far as I know, develop over much longer periods of time and various symptoms can be picked up and acted upon consciously.

I will be in touch this coming week with documents I mentioned earlier.

Kind regards,

Dear Mr. Siemaszko,

First of all I need to apologize for the delay. We were addressing more clinics in order to find the care you are looking for. We had a success and I can now confirm we can arrange a package of the examinations for you. It consists of the following examinations and procedures:

- Physical examination of abdomen, lower-abdomen, genital
- Digital examination of rectum
- Palpation examination of prostate
- Ultrasound examination of prostate, kidneys, urinary bladder and genitals
- Doppler examination of the blood-flow in genitals
- Uroflowmetry
- Complex laboratory tests (blood, biochemicals, hormones, serology, STD, kidneys)
- Sperm and urine cultivation

The Clinic we found for you in Prague is specialized in the oncology-urology. It offers a comprehensive diagnostics by the leading doctors in the field of urology. All doctors speaks fluent English and posses the highest qualification earned in

the Czech Republic and supported by many internships abroad.

The doctor will give you the results and recommend following steps in order to help you with the problems in a gentle and fast way.

The package costs € 650. Please find attached the Call for the payment and the price-list of our facultative services.

I am happy to reserve you the date for the examination. Do you already have some dates you will be coming to the Czech Republic?

I can also assist you with booking of the flight tickets, find the accommodation according to you preference and arrange the transport from/to the airport if you need. Our trained staff is also able to provide you with a number of accompanying services as well as support services guaranteeing comfort and convenience of your stay in the Czech Republic.

Should you have any questions, do not hesitate to contact me.

Yours faithfully,

Jakub Geier
