Dear Mr. Siemaszko,

First of all I need to apologize you for the excessively long waiting. I was in touch with the Urology clinic several times a week trying to speed things up. The laboratory tests were ready earlier and until this week waited for the review of the doctor. The values are standard, in the norm and test for STD are negative, there is no sign of any problem. I am attaching the detailed results for you as well as the final statement we received from the Clinic.

The over-payment will be transferred to your account today by our accounting department.

With kind regards,

Jakub Geier
